Introducing CloudWATCH2

Silvana Muscella
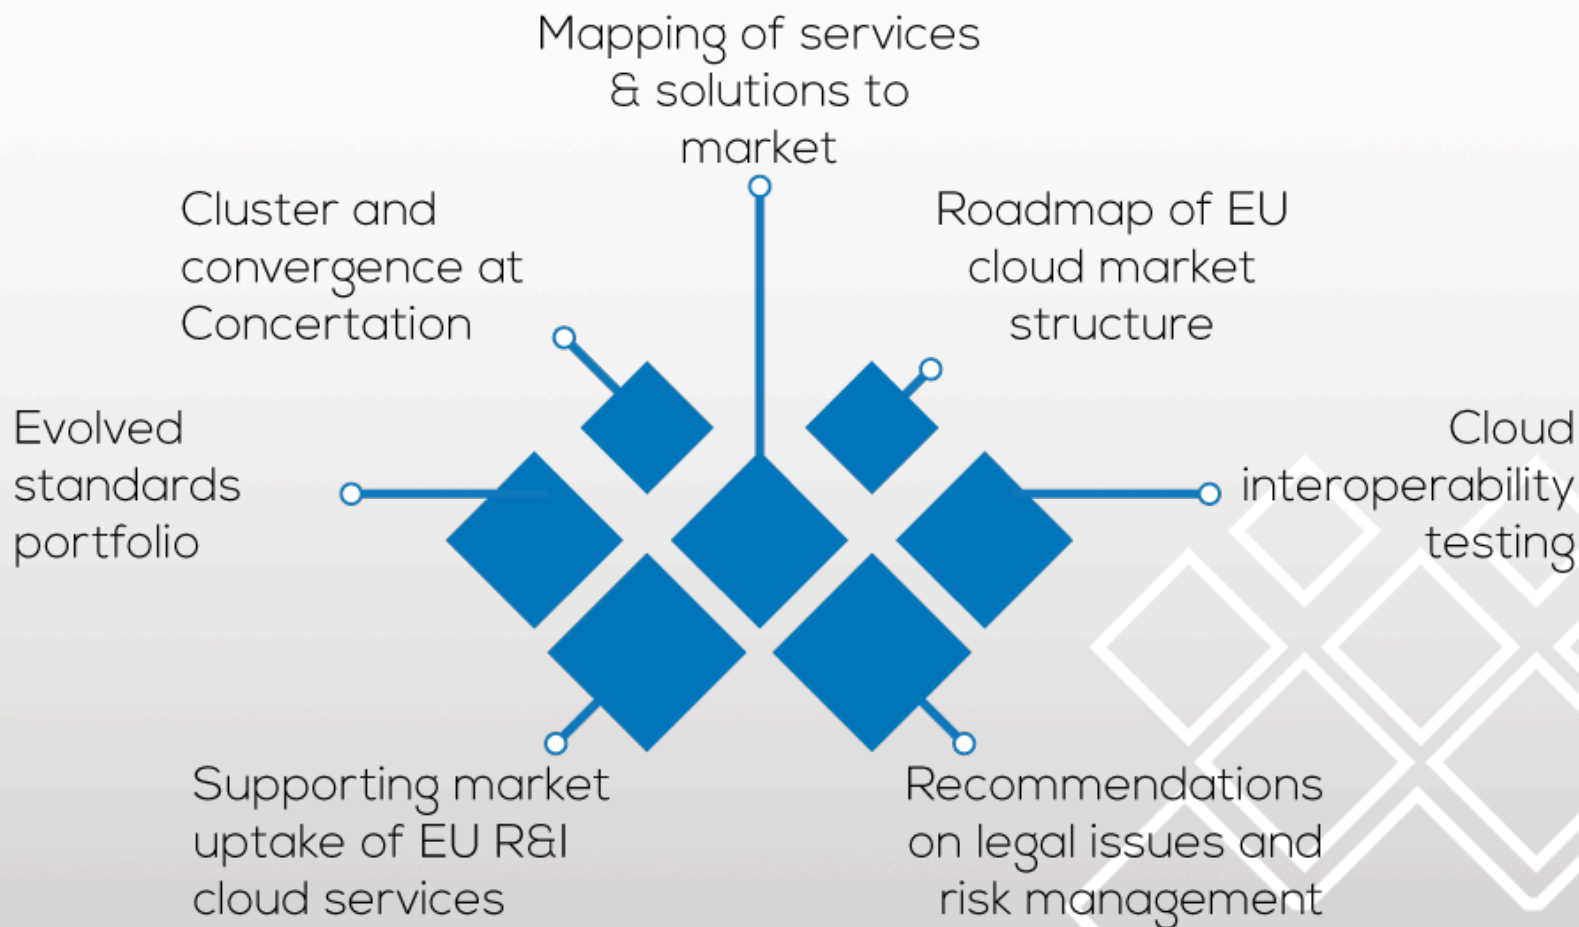

CEO, Trust-IT Services

Our Objectives

Our consortium

1. **Promote technology advancements** on cloud computing, software and services and **support open source re-usability** through **clustering** on common challenges.

2. Analyse and champion **standards for interoperability and security**.

3. Provide a preliminary **Roadmap on the cloud market structure encouraging transparent pricing**.

4. Offer educational services on risk **management and legal issues** to lower adoption barriers for **SMEs** and **public administrations**.

Outputs

Mapping of services
& solutions to
market

Cluster and
